

A diagram showing a 2x2 grid of squares centered on a coordinate system with a vertical y-axis and a horizontal x-axis. The top-left square is blue and contains the expression xy . The top-right square is red and contains the expression $x - y$. The bottom-left square is light blue and contains the expression x^2y . The bottom-right square is green and contains the expression $x + y$.

$$xy$$

$$x - y$$

$$x^2y$$

$$x + y$$
